Another opportunity to tend the Aqueduct Trail under the leadership of crew leader Adrianna Waitkins

A small group will continue the work begun on I Love My Park Day (May 4): removing garlic mustard and pachysandra from the Trail to make way for restoration planting this coming September.

This is also an opportunity to learn to identify some of the emerging native plants and to remove some additional invasive plants along the trail under the guidance of Diane.

Reserve your spot (space limited)
at aqueduct.org/events/tending-trail

Sunday
May 19
9:30am
to Noon

Park in driveway of 124 Quaker Bridge Rd.
